PROFESSIONAL SUMMARY

MERN Stack Developer with experience building scalable full-stack web applications and integrating AI-powered features. Proficient in MongoDB, Express.js, React.js, and Node.js. Skilled in REST API development, responsive UI design, secure authentication systems, and database integration. Passionate about creating user-focused applications and solving real-world problems through clean, efficient, and performance-optimized code.

SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB

Authentication & APIs: JWT Authentication, Clerk Authentication, REST APIs

Tools & Platforms: Git, GitHub, Postman, VS Code, Cloudinary, Vercel

Core Concepts: CRUD Operations, Responsive Web Design, API Integration, GitHub Actions

Soft Skills: Problem-Solving, Team Collaboration, Communication, Adaptability

INTERNSHIP

Sensation Software Limited | MERN Stack Intern | Mohali, Punjab | Jan 2026 – May 2026

- Engineered responsive web application using React.js, Node.js, and MongoDB, improving overall page load speeds by 20% and ensuring seamless frontend-backend integration.
- Designed and tested 9+ APIs using Postman, reducing data retrieval time and ensuring smooth database communication.

PROJECTS

Project : [Keprates.in](https://keprates.in) | **Technologies:** React.js, Node.js, Tailwind CSS, Clerk, Vercel, Responsive UI, JWT Authentication

- Spearheaded the creation of a full-stack e-commerce platform featuring secure authentication and payment integration, serving seamless interactions for end-users.
- Optimized frontend performance by integrating Cloudinary for automated image compression by 15%.

Project : Dreamo – AI Interviewer | **Technologies:** Node.js, React.js, MongoDB, Clerk, API Integration, Responsive UI

- Architected an AI-powered interview platform with real-time interview interaction and intelligent response evaluation.
- Engineered a real-time interviewing application, utilizing Hugging Face and Open APIs and custom prompt engineering to deliver accurate, automated evaluations of candidate responses.

Project : Compliance Analysis | **Technologies:** React.js, Node.js, MongoDB, CSS, Postman, Cloudinary, JWT Authentication

- Programmed a compliance analysis platform enabling companies to verify product descriptions against government regulations with high accuracy.
- Implemented scalable full-stack functionalities for secure data handling and efficient image management via Cloudinary.

Project : [RSesports.in](https://rsesports.in) | **Technologies:** React.js, Figma, Adobe Photoshop, Tailwind CSS, Clerk, Vercel

- Designed and deployed a gaming organization website featuring a modern UI, responsive layout, and smooth animations.

EDUCATION

MCA (AI & ML) | Shoolini University, Solan | Aug 2024 – Jun 2026

Relevant Coursework: Web Technologies, DBMS, Artificial Intelligence

BCA | Himachal Pradesh University, Shimla | Aug 2021 – Jun 2024

Relevant Coursework: Web Development

CERTIFICATION

- Full Stack Web Development** Bootcamp – AI Integrated | Udemy
- UI/UX Design** Certification Course | Udemy

LANGUAGE

English (Fluent), Hindi (Native), Punjabi (Conversational)
